

Supply Chain Explorer

By the Emerging Technology Observatory

This is an export from the ETO Supply Chain Explorer, available at: <https://chipexplorer.eto.tech> You can see the web version of this content at <https://chipexplorer.eto.tech/?filter-choose=input-resource&input-resource=N86>.

Chemical mechanical planarization tools

After other steps like etching and cleaning, chemical mechanical planarization (CMP) tools flatten the wafer surface. CMP tools are critical for chip fabrication, but not as complex as other tools, such as lithography and deposition tools.

Country provision

- China (mainland)
- Japan
- South Korea (negligible market share)
- United States

Notable supplier companies

- Accretech - Japan
- Applied Materials - United States
- CETC - China (mainland)
- EBARA - Japan
- Hwatsing - China (mainland)
- KCTech (negligible market share) - South Korea
- Revasum - United States
