

Supply Chain Explorer: Finished logic chip

This is an export from the Emerging Technology Observatory **Supply Chain Explorer** (<https://chipexplorer.eto.tech>). You can see the web version of this content at <https://chipexplorer.eto.tech/?filter-choose=input-resource&input-resource=N99>.

Finished logic chip

The production of a single logic chip often requires more than 1,000 steps, passing through international borders 70 or more times, before reaching an end customer. The result of this complex, \$500 billion supply chain is a resource fundamental to virtually every aspect of modern life.
